Re: Offsite Access for Well Installation
South Cavalcade Site

Dear Ms. Craig:

The Region has obtained verbal permission for access to the following sites:

Area A, Site 3: Jo Ann Mantranga
(713) 643-4590

Area B, Site 5: John Grenader
(713) 526-5541

Area B, Site 6: Daniel Richardson
(713) 489-1168
(713) 433-7194

Area C, Crozier-Nelson: Mark Nawrot
(713) 223-3037

Please contact these people to schedule the times during the week of July 27 for which access will be needed. Mark Potts and I have discussed with them the reasons why we need access, and the procedures which will be followed at the site. We also told them that you will be contacting them as to the time when access will be needed, and consulting them as to the actual location of the well on their property.

I was unable to obtain access to the Airco property which you had requested. Their corporate management is concerned that the well would in some way detract from the marketability of the land. We will need to discuss how this will impact the RI report.

Sincerely yours,

James F. Pendergast, P.E.
Remedial Project Manager
